Subject: Stabbing on the Boardwalk

Last night there was a stabbing and a separate beating on the Boardwalk. A man was stabbed by a homeless guy who stole his bike at about 8:30 pm. A few blocks away I witnessed five homeless guys pull a girl down by the hair and start kicking and beating her. I called 911 and the police were there in 90 seconds. The homeless girl refused to press charges against her fellow homeless. I went buy the seen at 12:30 am and the homeless camp was still there on the boardwalk with all there junk and a few homeless guys too!

I mentioned to the police that we were trying to raise the \$20,000 for the Warn Tag and Bag program. The police officer stated that when the property gets removed that the homeless go too!

I talked to an owner yesterday and they said that the homeless were not leaving property in front of their building so why should they contribute? They might not see it, but the stuff and the criminal element is around in the alleys and doorways, walk streets and the boardwalk.

We must clean up all of Venice and protect ourselves and our tenants. Westwood had two gang related shootings in the 90s and it is still a ghost town. The shoppers and patrons moved to Santa Monica and never went back. If we have one published incident we can all loose for years to come. If Santa Monica can clean up its problem then so can we.

Please come to the meeting at the Cadillac hotel at 6:30 tonight to hear how we can effectively and humanely clean up our streets.

Checks can be made payable to Venice Stakeholders which is a 501 (C) (3) tax exempt organization. All proceeds will be given to Chrysalis which will be administering the program to clean up your streets.

Please forward this email to all your friends and neighbors.

Thanks for everyone's support!

Sincerely,

Carl Lambert
